Classic Plus The Classic Plus is a sports shoe with innovative design developed to provide more grip and support. The horseshoe model comes in a full-creased left and right, front and hind shoe. The front shoe has embedded motion on the toe with Radius toe clip. This added rolling gives the necessary movement and rolling comfort to the horse. In addition, the shoe is slightly narrower on the branches and wider on the heels for optimal support.

The hind shoe with Radius side clips differentiates by the larger inner bevel for more traction and the wider toe for more wear resistance. The wider outside heel provides extra lateral support to the hind hoof. Together with the distinctive clean nail holes that each have the correct nail angle, this horseshoe model is a pleasure to use with only little adjustments needed for a perfect shoeing.

RECOMMENDED NAILS

Liberty Nail size 4, 5 • Hybrid, Hybrid Secure • E-Head, E-Slim, LX
