suitable for large and small cattle due to wide range of sizes

made of durable wood

ergonomically shaped to the bovine claw

grooved pattern for grip and optimum adhesion

UNIQUE AND DURABLE CLAW BLOCK DESIGN

WOOD COW BLOCKS These innovative wooden claw blocks set a new standard in the market with their unique claw shape. The asymmetric approach to blocking means that this claw block model matches the natural shape of the claw. This way, this Bovi-Bond block provides optimal ergonomic support for the cow, ensuring increased comfort. This gives you a more effective block for the cow, but also saves you having to make block adjustments during treatment. Thanks to the unique claw shape, these claw blocks fit nicely on the cow's claw, providing even better and more comfortable support during the healing process. The block works perfectly in combination with the Bovi-Bond claw adhesive.

Size XS	11cm • 4 ³ / ₈ "	742-0001-226
Size S	12cm • 4 ³ / ₄ "	742-0001-227
Size M	13cm • 5 ¹ / ₈ "	742-0001-228
Size L	14cm • 5 ¹ / ₂ "	742-0001-229
