

GEL ACCESSORIES

EASY-FIT GEL BIT GUARD

FEATURES

The Horsena Easy Fit Gel Bit Guard is the best solution to protect the mouth from pinching and gain more bit control. It's space-saving design leaves free mobility to the mouthpiece and the rings, encouraging the natural horse's chewing. The ultra-thin design provides optimal protection without altering the size of the bit. It also provides adequate support to the bit, keeping it straight and balanced in the mouth, allowing better control and responsiveness. The innovative design made of a network of through holes ensures that the foam generated during the horse's exercise can escape smoothly, allowing good air circulation and liquids drainage. The anti-slip properties of the gel keep the Bit Guard in the correct position, avoiding rotations or other unwanted movements.

Made of hypoallergenic and antibacterial gel, it eliminates the risk of allergic reactions and irritations.

Extremely elastic, it's easy to fit and adapts to any type of bit.

Suited for all equestrian disciplines.

Made in Italy

- PROTECT FROM PINCHING AND ABRASION
- ULTRA THIN DESIGN
- EASY TO FIT
- BREATHABLE
- NO-TOXIC AND ANALLERGENIC
- MADE IN ITALY

INFO & CARE

- Easy to clean under running water
- Store it in a dry place.
- Do not expose to direct heat sources.
